

A powerful POS for both sides of the counter

Engage your customers like never before with Station Duo. Run loyalty programs, contribute change to causes, capture contact information, accept mobile wallets and more.

Let them drive

Station Duo comes with a smart terminal for your customers. That means they can confirm their orders, enter their contact information for rewards and complete payment faster.

Accept all major payment types

Let your customers pay how they want to pay. Swipe, dip or tap. Credit, debit or EBT, NFC payments including Apple Pay®, Google Pay®, Alipay® and more.

Move at the speed of now

Station Duo is a fast, high performance point-of-sale (POS) system. From inventory and orders to managing your staff and running reports, it's all at your fingertips.

The smart and simple way to run your business more securely

- Secure – Help protect your business and customer information with end-to-end encryption and data tokenization and integrated EMV® chip sensors.
- 24/7/365 Support – You can't do it all on your own. When you need help, we've got your back.

Technical Specifications

- A high-res 14" display for the merchant and an 8" display for the customer, both with chemically strengthened cover glass with anti-fingerprint coating
- Integrated LTE for primary or fallback connectivity
- Fast receipt printer

A smart POS system built for speed and simplicity

Tackle your daily traffic spikes without breaking a sweat. Station Duo is a fast, customer-engaging POS, designed for speed, security and engagement.

Meet (and reward) your biggest fans

Station Duo's smart terminal makes it easy to gather contact information and build lasting customer loyalty with built-in Clover Rewards.

Give back to your community

Give back to your community with charity apps that enable donations and change rounding at checkout, and strengthen the sense of doing good.

Cut the counter clutter

One central hub for power and processing.
One screen for you, one for your customers.

Business control at your fingertips

Access and manage your back-of-house data, reports and payroll anywhere you need to run your business. See the patterns and trends driving your sales and take a smarter approach to marketing.

Clover Flex

On the Counter. In the Aisle. At the Table.

Clover Flex is ready – whether you need to take chip and PIN or contactless payments (like Apple Pay®) at the counter, busting the line, at the table, or just about anywhere else.

Built to Travel

Wi-Fi and LTE-ready, Clover Flex is prepared to work on the road. It fits in the palm of your hand – making it perfect for line busting.

More Ways to Pay

Clover Flex accepts chip and PIN, contactless credit/debit, mobile wallets (like Apple Pay®, Google Pay®, etc.), and cash.

Ready, Set, Grow

Clover Flex grows with you. From monitoring sales and profit trends to controlling employee permissions and managing employee shifts, you can run a full POS from the same compact device that takes your payments.

Less to worry about with Clover in your corner.

Secure – Backed by over 25 years of data protection, Clover Security helps protect your business and customers.

24/7 Support – You can't do it all alone. So when you need help, we've got your back.

Versatility at the counter, in your hand, or on the go.

Small in size, Clover Flex is built to do business virtually wherever you are. Easy to take with you and easy to hand to customers, they can dip, tap, and enter a PIN, whether in line, in the aisle, or at the table.

Real-time Reporting

Review your complete sales history, and manage employees with Clover Dashboard – whenever, wherever. Pull a report in real-time by terminal or employee ID.

Keep Your Regulars Coming Back

Build a powerful customer database with every transaction and use it to stay connected to your customers, advertise to them, and incent them to come back.

Stay Connected

Connect your system to the internet with ethernet, Wi-Fi, or LTE (requires a separate service plan).

Custom Configurations

Add your logo, website or even a custom message to your terminal receipt.

Technical Specifications

- ✓ Bright, 5-inch HD touch-screen display
- ✓ Speedy Quad-Core A7 CPU, 1GB RAM
- ✓ 2100mAh Lithium-Ion battery supports up to 8 hours of use for a typical small-to-medium sized business

Clover Go

The All-in-One Contactless, Chip and Swipe Card Reader

Go here. Go there. Accept payments anywhere. Clover Go Contactless Reader is your go-to point-of-sale for secure credit card swipes, dips, and taps. Just bring your smartphone or tablet and a free hand.

Fast

No matter how your customer is paying, contactless, EMV® chip, or traditional swipe, Clover Go can take it—and get you paid fast.

Smart

Big things come in small packages. With Clover Go, you get intuitive sales reporting, business insights, and more.

Flexible

The Clover platform provides robust hardware and software solutions that grow with you as your business evolves.

Less to worry about with Clover in your corner:

Secure — Backed by over 25 years of data protection, Clover Security helps protect your business and customers.

24/7 Support — You can't do it all alone. So when you need help, we've got your back.

Visit clover.com or contact your representative to learn more.

Tap. Dip. Swipe. Repeat. All day. Every day.

Whether you're running around town or running around your store, the Clover Go Mobile Point-of-Sale app and Clover Dashboard place additional, robust features at your fingertips.

Connect Wirelessly

The Clover Go pairs seamlessly with your mobile device or tablet through a Bluetooth® connection.

Tips & Taxes

Set custom percentage amounts for tips and create multiple tax rates for the things you sell.

Paperless Receipts

Customers want it their way, right down to the receipt. With Clover Go, it's simple to email or text receipts to your customers to keep them happy.

End-to-End Security

Built-in Clover Security helps protect your customers, business and reputation from fraud.

Ordering Kiosk | A solution made for Clover POS users

As a Clover customer, there is no easier way to add self-service ordering to your restaurant. The Clover Ordering Kiosk allows you to focus your team on producing and delivering more orders. Let the kiosk do the work of order taking and free your team to be providing fast, efficient, and friendly customer service.

The kiosk brings together three best-in-class solutions to deliver you a seamless solution for your restaurant. The kiosk itself is a Samsung KM24A Kiosk – built for the self-service environment the kiosk is an enterprise grade solution that will stand up to years of use in your restaurant. The software that drives the kiosk is created by Nanonation, one of the top providers of interactive kiosk solutions. And finally the Clover POS system which is the heart of the solution. You never have to recreate your menu or manage content and prices in multiple systems.

Drop-in Solution

For new and existing Clover POS customers, you can be up and running with self-service ordering in no time.

Fast & Efficient

Keep your line moving and orders flowing. Add one kiosk to augment your counter service or multiple kiosks for a full self-service ordering process.

Cost-Effective

With affordable kiosk hardware and a low monthly cost of only \$69 per kiosk, you will be seeing an ROI in as little as 16 weeks.

Ordering Kiosk

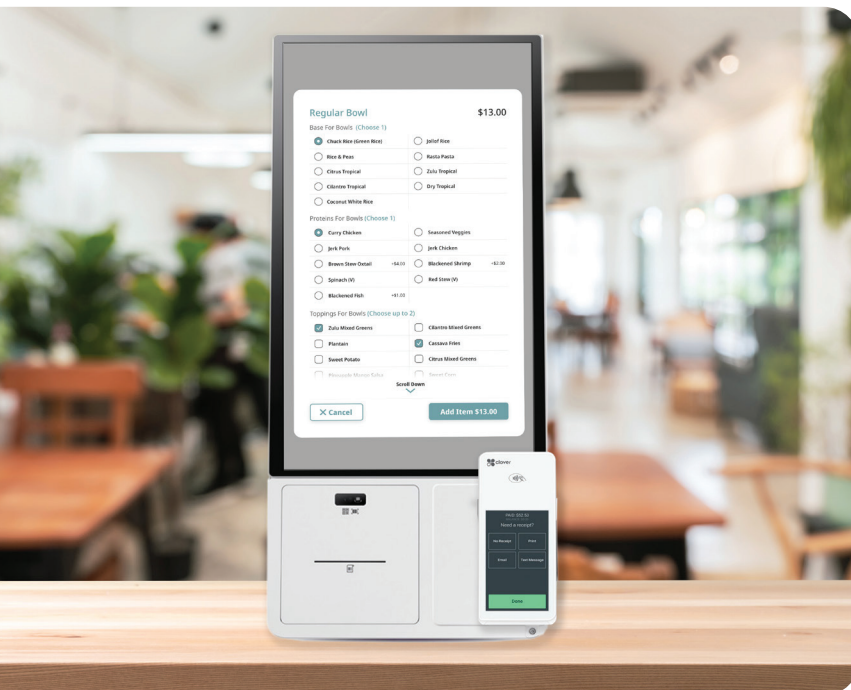

THE HARDWARE:

- » A Samsung 24" commercial touch screen with antimicrobial coating
- » Countertop, floor stand and wall mount options
- » Clover Flex payment terminal
- » Uses standard 3-1/8" thermal receipt paper

SAMSUNG

THE SOFTWARE:

- » Connects to and pulls your menu directly from your Clover POS system – ensures that your items and pricing are always in sync
- » Orders show on your KDS or print to your kitchen printer just as if they were placed at your counter
- » Easily turn categories, menu items or modifiers on/off on the kiosk via a web-based tool
- » Add your own content, promotions, and specials to the attract loop (content that runs when the kiosk is not in-use)

CLOVER ORDERING KIOSK

CashNet's Clover processing solution combined with Samsung's KM24A kiosk hardware provides a robust, easily implemented platform for Clover POS customers to smoothly add ordering kiosks to their restaurant with minimal setup and effort. The self-service ordering kiosk pulls the locations existing menu from Clover into the kiosk.

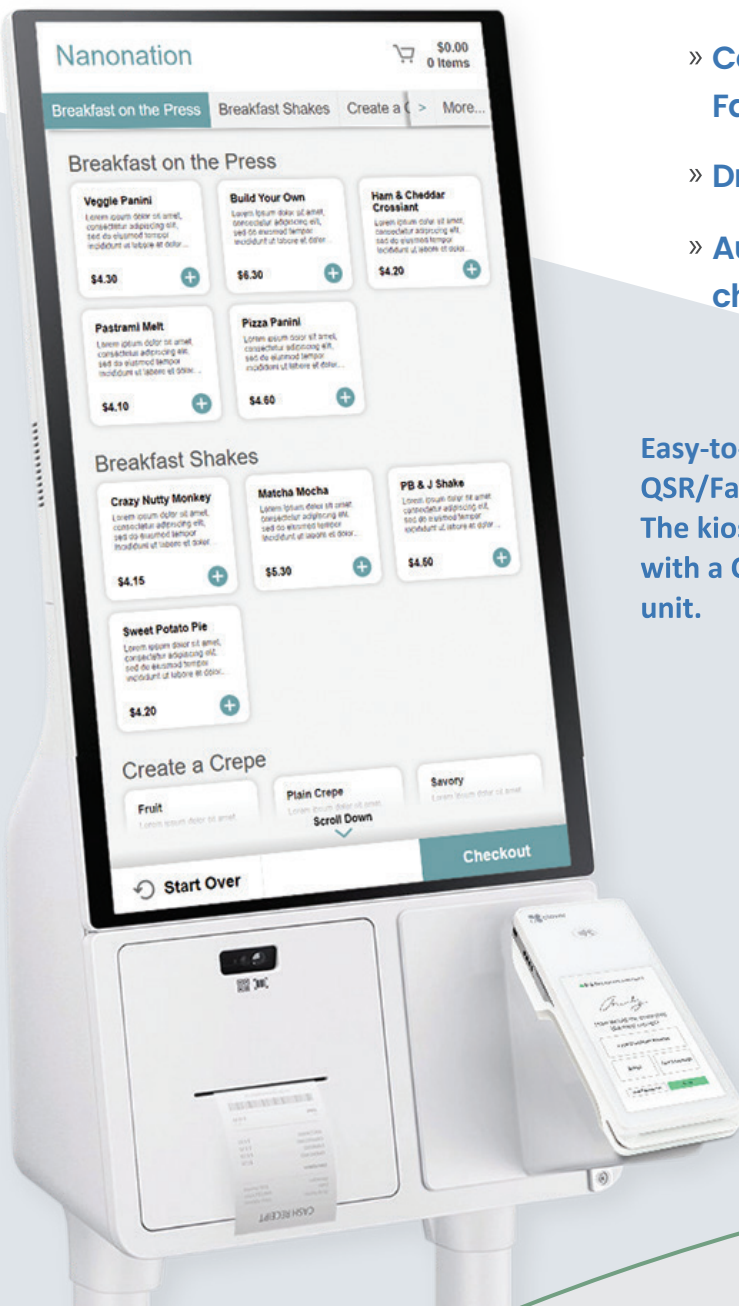

Customers continue to manage their menu in Clover with it automatically synchronized to the kiosk. Restaurants can easily configure menu options and brand the kiosk interface to suit their branding needs.

Orders placed on the kiosk are sent to the Clover POS as if placed from any other Clover terminal. The payment process utilizes the Clover Flex terminal mounted to the thermal printer built into the Samsung kiosk then prints the user's receipt with order number.

FEATURE OVERVIEW

- » **Cost-effective self-service solution for QSR/ Fast-Casual of any size**
- » **Drop-in solution for Clover POS customers**
- » **Automatically syncs with price and menu changes**

Easy-to-implement ordering kiosk solution for any QSR/Fast Casual Restaurants utilizing a Clover POS. The kiosk operates on the Samsung KM24A kiosk with a Clover payment terminal attached to the unit.

CLOVER ORDERING KIOSK

CashNet's payment processing solutions through Clover, paired with Samsung's Tizen-powered display hardware, provides an easy to deploy digital signage solution. Effortlessly manage content and monitor a signage network from anywhere in the world from an easy-to-use cloud-based platform. Group digital signs based on type, physical location, or other categories. This solution uniquely lets content managers target content to locations, regions, store types and even day-parts at the individual item level—helping boost profits through proven engagement techniques.

CashNet helps turn Samsung displays into the perfect digital signage solution for retailers, schools, restaurants, hospitals or any other space needing digital communications.

Cloud-based software comes with a complete library of professionally designed templates to streamline the setup process and allow users to get signage up and running quickly.

Maximize the retail shopping experience through digital signage solutions by cross-selling and up-selling to customers as soon as they walk through the door. In addition, create a memorable experience and build long term relationships with customers through loyalty program management, registries, or data exchange applications.

BENEFITS OF KIOSKS

- » Enterprise-class CMS tool
- » Support for large scale deployments
- » Powerful scheduling and targeting tools
- » Simple deployment with Tizen SoC
- » Backed by 24x7x365 support

Manage orders in an orderly fashion. (It's now possible).

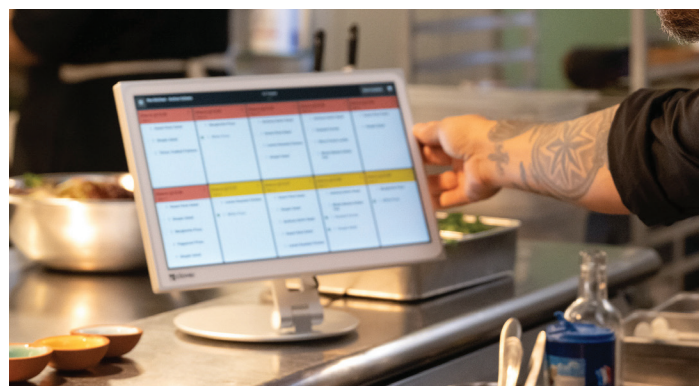

Out with the paper tickets, and in with the Clover Kitchen Display System (KDS), an all-new solution that streamlines order management while syncing the kitchen and front-of-house.

Built to make orders make sense.

One screen. One source of truth. No pens, no printers, no lost tickets. Just a real-time look at ticket times, order statuses, and everything else that keeps service moving smoothly, especially during swings in order volume.

Efficiency is money. Thanks to a totally streamlined approach, Clover KDS can support more orders and bring in more revenue.

Getting better all the time. With reporting on key fulfillment metrics like prep time and move, you can track your team's performance and adjust as you go.

Built for restaurants – and restaurants only.

- Expanded 14" display for easy viewing.
- Made of temperature-resistant aluminum, with the highest heat tolerance – 122° F – in the market.
- Easy to clean, with anti-fingerprint coating.
- Compatible with third-party mounting equipment for wall or shelf mount.
- WiFi, LAN (including PoE+, IEEE 802.3at)
- Bi-directional speakers for alerts in noisy kitchen environment (85 dB at 0.1m)

Built to integrate with all things Clover.

- Clover KDS automatically connects with Clover POS, Clover Online Ordering and BentoBox Online Ordering for streamlined communication between front- and back-of-house.
- Place an order on any internet-enabled device in the restaurant, and it will fire straight to the KDS.
- Print Runner tickets on your network connected printer directly from the KDS.

→ For more information, please contact your CBE

Features include:

- Multi-level fulfillment
- Expo mode
- Item level routing
- Prep time reporting
- Color-coded order status
- Runner ticket printing

With Clover KDS, everyone benefits:

Managers

No more order inaccuracy = far more customer satisfaction.

Servers

Easily fire orders to the KDS from tables and stations using any connected device.

Kitchen staff

Stay on top of every order by getting all the details you need from one (indestructible) screen.

→ For more information, please contact your CBE
